N°. 1006.

Yesterday arrived a Mail from France, *and another from* Flanders.

Extract of a Letter from Gratz, dated Aug. 24. O. S.

COUNT SECKENDORF had been for some time much indisposed, but is now recovered. His Lady arrived here a few Days ago and lodges with him in the Citadel, where Count Seckendorf has the Liberty of walking all about the Place, with an Officer to attend him; but he is obliged to shew all the Letters he receives or writes, to the Captain of the Castle. The Count de Stubenberg, Commandant of Gratz, has been several times to visit him, and has assured him that he will endeavour to make his Exile as easy to him as the Emperor's Orders will permit him.'

The Order which the Commandant of the Castle has received from the Emperor's Council of War relating to the Count de Seckendorf, is as follows, viz.

I. The Count de Seckendorf shall have the Liberty of walking all over the Citadel, but shall not be allowed to wear a Sword, and an Officer shall always go with him.

II. The Centry which used to be posted at the Door of his Lodgings shall be taken off; but it shall be earnestly recommended to the Guards at the Gates, to be very watchful that nobody goes out.

III. His Domesticks Swords shall be taken from them.

IV. He shall not correspond Abroad, but on condition that he open the Letters which he receives in Presence of the Captain of the Citadel, who shall also see the Letters which he writes, and be present at the Sealing of them up: And the Guards, &c. shall keep a strict look out, that he neither send nor receive any Letters clandestinely.

V. The Countess of Seckendorf shall be allow'd to go to the Citadel of Gratz to be with him; but when she is once enter'd, she shall stay there for good and all, and shall not converse with any one else whomsoever.

VI. No Officer shall pay her a Visit without Leave of the Commandant, nor speak to her but in Presence of an Officer: And as to her Domesticks, they shall be absolutely forbid to maintain any Correspondence Abroad.

Vienna, Aug. 26. O. S. The Particulars of the Surrender of Orsova are such a Secret, that People are forbid to talk of it, and 15 or 20 People, who spread several Reports about it, are taken into Custody. Our last Advices from Hungary say, that our Army is incamp'd about a League from Belgrade; and that the Turks, to the Number of 100,000, or 120,000, as some say, are advanced near Temiswaer. There are Letters which say, that after Orsova was taken, the Grand Vizier made a Present of a fine Horse to General Furstemberg, Nephew to the Velt Marshal de Konigsegg, accompany'd with a Compliment, That he intended very soon to pay a Visit to his Uncle. The same Letters add, that the Enemy's Army, which is marching in three different Bodies, consists of 120,000 Men.

Paris, Sept. 9 O. S. They write from Toulon, that the four Gallies of the King which were at Bastia, brought into that Harbour 5 Corsicans of the greatest Distinction upon the Island, which are coming hither as Hostages. Letters from Marseilles say, they have Advice that the Count de Bonneval has still Abundance of Credit at the Porte; that every thing relating to the War betwixt the Courts of Vienna and Petersburg, was directed by his Opinion; that 'twas owing to his Advice that no decisive Battle had yet been hazarded. That the Grand Vizier, who has a very great Esteem for this General, kept up a regular Correspondence with him, and that he took no important Step without first consulting him. We hear that the Deputies of the Republick of Geneva were at Issy to take their Leave of the Cardinal de Fleury, whose Health is so variable, and the Reports of it so different, that one does not know what to say of it. Some will have it that there's great Hopes of his Recovery; and others, that his Life is in the greater Danger because of a Mortification which threatens his Leg. Mean time the Count de Maurepas supplies his Place, and with so much Applause, that he is generally reputed the fittest Person to succeed the Cardinal de Fleury, in case his Eminency should die. The Actions of our India Company which fell to 2015, upon the News of the Cardinal's Relapse, are got up again to 2052.

Vienna, Sept. 6. N. S. The Grand Duke of Tuscany left this Place on the 2d Instant, to go to the Imperial Army, where it is reckoned he will arrive to Night.

Stockholm, Aug. 25 O. S. The 23d Instant the States of the Kingdom being in a full Assembly, the Senate sent them a Message, acquainting them, that the State of his Swedish Majesty's Health requiring more Repose and Quiet than was compatible with the Affairs of the Government, he had desired the Queen to take the Regency upon her, and to supply his Place in the Senate during his Illness. The States having received this Message, they each of them named a Deputation to wait on the Queen in a Body, to inform her Majesty of their Consent. Accordingly the next Day, the Deputations were introduced to her Majesty, when the Marshal of the Dyet made a Speech to her Majesty, who answered in a few Words, and then referred herself to Count Bonde, who replied with another Speech, and then the Marshal, as well as the Orators of the three States, who were at the Head of their Deputations, had the Honour to kiss the Queen's Hand.

Stockholm, Aug. 29. O. S. The King of Sweden has slept tolerably well every Night since the 25th; begins to take the Bark regularly; has missed his Fever, and was so well this Morning as to sit up in his Room.

Leghorn, Aug 22. On the 23d his Britannick Majesty's Ship the Greyhound, Capt. Ambrose, Commander, from Lisbon and the Streights, came into this Port, and on the 27th sailed for Port Mahon and Gibraltar; on board which imbark'd General Columbine.

Rome, Aug. 23. They write from Naples, that the Electoral Prince of Saxony continues at the Baths of Ischia, and finds such Benefit by those Waters, that his Royal Highness has left off the Use of his Crutches. The Marquis Luchesini, Envoy from the Duke of Modena at Naples, has taken his Leave of that Court, on his Departure for the Court of Spain. The King of Naples has made a Present to him of his Picture set in Jewels, valued at about 500 Pistoles. On the 23d, the Count de St. Estevan and his Family, pursuant to Orders from the Court of Madrid, imbark'd at Naples on his Return to Spain in the St. Charles, a 60 Gun Ship, lately built at Naples. The King of Spain, 'tis said, has declared him a Duke and Grandee of Spain of the first Rank, and the King of Naples made him a Present of 2000 Pistoles for the Expences of his Journey: At the same Time the Queen gave to the Marchioness de Solera, his Daughter-in-Law, several Jewels of great Value. These Letters from Naples add, that the Duke di Castropignano is to succeed Prince Corsini as Vice-roy of Sicily. That Count Mahony is appointed to command in Chief the Garisons on the Confines of Tuscany, the Marquis di St. Cristina, the Castle of St. Elmo at Naples, and Don Paolo Marchese, that of Dell' Ovo. That an Encampment of 16,000 Men is order'd by the Court of Naples, in the Neighbourhood of that Capital, against the Beginning of September. And that the same Court has order'd the Purchasing of all the Wheat that can be brought in the Ecclesiastical State.

Florence, Sept. 1. A new Regulation with regard to the Troops of the deceased Great Duke, has of late been sent from Vienna, and tho' not as yet published, 'tis reported that a Regiment is to be formed of them, to be called the Tuscan, which, and that of Lorain, consisting both of about 4000 Men, the Great Duke designs to keep up, and M. de Braitewitz is to command in Chief his Royal Highness's Forces. On the 28th arrived here Lord George Bentinck, in Company with three other English Gentlemen. On the 29th the Duke d'Elboeuf passed through this City on his Journey to Avernia, Camaldoli, and other Places in this State.

IRELAND.

Dublin, Sept. 5. Last Week Dr. John Anderson was married to Miss Minchin, Sister to Paul Minchin of Tipperary, Esq;

We hear that one Mrs. Nugent, Sister of ——— Nugent, Esq; of Calinstown in the County of Westmeath, as she was walking in the Wood some Distance from the House, was attacked by a Man naked, who knocked her down and took a large Purse of Gold from her, and made off; the next Day there were several taken upon Suspicion, who were all strip'd, and the Briers having scar'd one of their Skins, the Man own'd the Fact, and returned the Money.

By Letters from Cork we are inform'd, that one of the Transport Ships sailed from thence for Port Mahon, was, when they had been but a few Hours at Sea, almost filled with Water, which obliged the Sailors to pump very hard to save themselves till the Leaks were found out; which, upon Examination, proved to be several Agur Holes bored in the Bottom of the Vessel by three English Soldiers, and afterwards discovered by one of themselves. The said three Soldiers were immediately put on Shore in order to be tried for the said execrable Fact, and the Vessel proceeded on her intended Voyage.

On Friday last in Swan-Alley on the Glib, a Cat coming into the Room of Gerardy Whittell, a noted Drummer, who frequents Fairs and Alehouses in and about this City, which Cat his Wife had been fond of and fed often, and at last became troublesome; she gave it a Blow, and a Push from her, on which the Cat shewed her Resentment and grumbled, and stood in a Corner of the Room till the Woman got up and was going about her Business; when the Cat finding an Opportunity, got hold of the Woman's Leg, and by no Means could be forced to quit the Hold; so they sent for a Butcher to the Glib, who came and cut the Cat's Head off, and they were not able, after the Head was sever'd from the Cat's Body, to get the Head from the Leg, till the Butcher slit the Jaws open, and then forced a Piece of Iron into them and opened the Mouth.

We are well assured, that the same Day died in Copper-Alley, the Wife of James Simpson, a Drawer at the Bull's-Head in Fish-Shamble-street, who last Easter was delivered of a Child, which was come to its full Time, and that she was delieered of another Child, which was likewise come to the full Time, on Thursday se'nnight last, (the 24th of August last) being St. Bartholomew's Day. Both the Children are alive and well; which is a strong Proof of Superfœtation, some Months intervening between the two Births.

SCOTLAND.

Edinburgh, Sept. 7. On Monday Night last a Fire broke out in the Out-houses of the fine Seat of Preston-hall in East Lothian, the Property of her Grace the Dutchess of Gordon, but rented till the Term by the Laird of Macleod, whereby 200 Stone Weight of Hay was burnt, and much other Damage done. 'Tis said to have been occasioned by a most stupid Negligence of one of the Servants.

Agreeably to what we lately mentioned, a Commission passed the Seals Yesterday (*per saltum*) constituting the Hon. Brigadier General James Campbell of Lawers, Esq; Constable and Governor of Edinburgh Castle; and he is to be in Town this Week in order to take upon him that high and honourable Command.

Yesterday Thomas Dalziel, Esq; who had mounted Guard last Sunday, was received and placed by the Right. Hon. the Lord Provost (as Colonel) one of the Captains of the City Guard, at the Head of the Squade lately commanded by Capt. Neil Macleod, and in room of the said Captain; who, on this Occasion, amicably took Capt. Dalziel by the Hand, wishing him all Joy. My Lord Provost also appointed Serjeant Alexander Macdonald, Serjeant Major to the whole Corps.

Barbara Balingal stood bare-headed at the Cross betwixt the Hours of 11 and 12, with two Dozen of Herrings put about her Neck by the Executioner, and the following Label on her Apron, 'I Barbara Balingal

'Balingal ſtand here, by Order of the Magiſtrates, 'for cheating and cauſeleſly beating the Servants of 'the Neighbourhood;' and was afterwards remanded to Priſon till ſhe pays the Complainer 10 s. Sterling Damages. The Property of the Herrings devolved afterwards on conſcientious John, as his Perquiſite.

TINCTURA MIRIFICA:

OR,

The Admirable TINCTURE, *which infallibly cures the* STONE *and* GRAVEL, *whether in the* KIDNEYS, URETERS, *or* BLADDER. *and alſo the* Strangury, Stoppage of Urine, *and all* Heat, Pain *and* Difficulty *in* Making Water.

A Few Drops of it momentarily take off the moſt excruciating Pains in the REINS or BLADDER, and certainly prevent their Return; for it infallibly cures that Diſtemper in an extraordinary Manner, inſtantly removes all Uneaſineſs or Difficulty in making Water, heals all Excoriations, and even Ulcers of the Urinary Paſſages, relaxes the Ureters, ſo that ſmall Stones together with Gravel, and all mucous ſlimy obſtructing Matter may paſs freely from the Kidnys, to be voided viſibly with Urine, without Pain; effectually cleanſes the Reins, Ureters, and Bladder from all Impurities, entirely prevents the Stone in thoſe who are troubled with the Gravel only; aſſuredly diſſolves all large Stones, poſſible to be diſſolved; and likewiſe brings all the Urinary Parts and Paſſages to their due Tone and Vigour, ſo as perfectly to free the Patient from all the terrible Symptoms and miſerable Effects of that torturing Diſeaſe.

It is the ſafeſt Medicine in the World, and not diſagreeable to take; the very firſt Doſe of it abſolutely cures the moſt dreadful Fit of either Stone or Gravel, in a Minute, giving ſuch wonderful Relief and perfect Eaſe, as is indeed very ſurprizing; and this great Numbers of Perſons of Worth have experienced, to their Infinite Satisfaction.

It is to be had only at Mr. Radford's Toyſhop, at the Ball and Crown againſt St. Clement's Church-Yard in the Strand at 3 s. 6 d. a Bottle, with Directions.

The Univerſal Family MEDICINE,

Still more and more fam'd, after upwards of 14 Years Succeſs with the Publick,

Is ſold by the Author's Appointment, at Mr. King's China Shop in the Poultry, near the Royal Exchange; at Mr. Martin's Toy Shop, the Sign of the Three Rabbits in Durham Yard in the Strand; and by Mr. Hildyard, Bookſeller in York, at 3 s. the Bottle Retail.

It is to be taken at any Seaſon of the Year, but eſpecially in the Spring and Fall; is ſo very agreeable to Young and Old, that Children take it without Trouble, a few Drops being a Doſe; and ſo gentle, that it weakens not the moſt Aged: For it is a ſafe and effectual Alterative, to be taken in a leſs Doſe than where Purging is neceſſary; an Excellence inherent in this Medicine, which is a ſingular Property well known to the Learned, to be in ſome Cathartick Medicines.

It is in particular,

A Certain and infallible Cure for the SCURVY, tho' of the longeſt Standing, and attended with the moſt aggravated Circumſtances (a Diſtemper ſo common to Engliſh People, that not one in a thouſand is wholly exempt from it, and great Numbers are ſorely afflicted with it) being a cordial Elixir, peculiarly adapted to that Diſeaſe in all its Forms of appearing, from the ſlighteſt itching Humour in the Blood, to its utmoſt or laſt Efforts on human Nature.

For it is a true Specifick Cordial, that perfectly cures that Diſtemper by gentle Evacuation, by Stool and Urine, the only ſure and effectual Way perfectly to cure the Scurvy, and prevent Relapſes (notwithſtanding what may be dreamt to the contrary) the Truth of which is witneſſed to daily, by the many Thouſands that have taken this Medicine. It ſo powerfully rectifies the Blood and Juices, that ſcorbutious Cachexies alſo ſpeedily cured by it; and all Spots, Blotches, Pimples, &c. on the Skin, are quickly and entirely taken off, the Patients made lively and brisk, many chronick Diſeaſes prevented, and a due State of Health ſecured.

It removes all Pain from the Stomach, helps Digeſtion, opens Obſtructions, and is peculiarly ſerviceable to Maids inclined to, or troubled with the Green Sickneſs. 'Tis the beſt Medicine in the World to deſtroy Worms in Children or grown People, and prevent their Return; for it ſeparts away all that ropy, viſcid Humours which breed them in their Bowels, and is ſo well adapted to all Conſtitutions, that it is deſervedly eſteemed both in City and Country, the moſt general Family Medicine that ever was known to preſerve Health, and hinders no Buſineſs or Recreation.

Good Allowance is given Wholeſale by Mr. King for ready Money to Country Shopkeepers, &c. to ſell again. This Medicine will keep many Years in any Climate.

The Directions given with it are large and full.
